

Western Canadian One Health Antimicrobial Stewardship Conference: Inspiring and Aligning Action

Regina, Saskatchewan

Tuesday, January 22 through Thursday, January 24, 2019

Bringing together interested antimicrobial stewards from both human and animal health sectors to exchange ideas and take action.

How are antibiotics used in medicine and agriculture today, and what can we do to shape the future? In both plenary and discipline-specific concurrent sessions, speakers throughout this dynamic 2-day conference will share leading edge research and successful approaches. In addition to the presentations, opportunities for interaction will be provided through Q&A, moderated discussions, networking, and a facilitated breakout session based on implementation science.

Learning Objectives

Conference delegates will gain:

1. Improved awareness of challenges influencing AMR & leading practices in AMS in human and animal health sectors;
2. Improved understanding of the implications recent research and policy have for practice;
3. Inspired ideas for alignment in stewardship activity across sectors;
4. Increased knowledge of implementation science to improve uptake of evidence-based stewardship; and
5. Inclusion in a network of antimicrobial stewards in Western Canada.

Who should attend?

Professionals (physicians, veterinarians, pharmacists, dentists, nurses, infection control professionals) in active practice, as well as in leadership, academic and policy roles. Students in these disciplines are also welcome.

The \$125 registration fee includes:

- ✓ all presentations
- ✓ opening reception
- ✓ banquet
- ✓ breakfast and lunch on both days

Space is limited, so please register early.
